

HOW TO INSTALL ESPERS MOBILE WALLET FOR ANDROID OREO:

Download the file from official Espers website:

<http://www.espers.io/download/wallet/android/espers-mobile-app-v0.9.1.1.apk>

Once it is downloaded, find a download folder from your file manager and tap the espers-mobile-app-v0.9.1.1.apk file and hit install.

Your device now presents you a popup option which gives the External Sources option.

From the Install other apps menu click on the app you want to enable access and then tap on the switch next to 'Trust app from this source'

Now the app should install and you should be ready to go.

This needs to be done only once and if you have done it before already your app should just install normally.
